Emily Turner, Pharmacist, Clinical Lead for CVD Prevention, West Yorkshire ICB
Dr Lesley Appleton, GP, Neston Surgery
Dr Chris Carvalho, GP, Clinical Lead for CVD, North East London ICB, Clinical Lead, Clinical Effectiveness Group, Queen Mary University of London

The audit also has a Patient Focus Group made up of 10 patients from across England, representing a diverse range of ethnic backgrounds and covering different CVD related conditions. We would like to thank the members of our Patient Focus Group, who have enthusiastically given us the patient perspective which has been vital in ensuring that the audit achieves its purpose.

Finally, we would like to thank both Dr Matt Kearney, Programme Director for CVD Prevention and Proactive Care, UCL Partners and Lorraine Oldridge formerly of the Office for Health Improvement & Disparities for their strategic leadership in the early development of CVDPREVENT as well as the British Heart Foundation for their funding of the initial audit feasibility report.
