

Key

- Not proved in wells
presence/absence unknown
- Interval eroded from beneath
base-Permian unconformity
- lacustrine lithofacies
- carbonate reef lithofacies
- Yoredale lithofacies with
dominant coal seams
- Platform/ramp carbonate
lithofacies
- shale-dominated lithofacies;
thin units sandstone &
limestone
- hemipelagic lithofacies
- volcanic facies: mainly
basaltic lavas
- upland and emergent
areas
- wells recording rocks
of this interval
