

Compliance action taken for childcare provision

Ref: 223187/5965254

Date: 26 March 2025

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 21 February 2025, we received concerns that the provider was not meeting some of these requirements relating to concerns about training and skills, medicines, risk assessment, information about the child, information for parents and carers and complaints

On 24 March 2025, we carried out a regulatory phone call. We found the provider was not meeting some of the requirements and had taken action to put this right. The provider has revisited and updated their administration of medication policies and procedures. They have strengthened staff knowledge and understanding through training and support to ensure medication administered to children promotes their good health and safety.

The provider will be able to give parents further information about this.

The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to

bring about compliance with requirements on our website for a period of five years.

For further information please read the Early years compliance handbook which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted.
