

Compliance action taken for childcare provision

Ref: 402923/6186885

Date: 2 December 2025

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 21 October 2025, we received concerns that the provider was not meeting requirements relating to safeguarding policies and procedures, whistleblowing, and concerns about children's safety and welfare. In addition, on 21 October 2025, the provider notified us about matters relating to safeguarding policies and procedures and safety and suitability of premises, environment and equipment. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of a significant event.

On 4 November 2025, we carried out a regulatory telephone call. We found the provider was not meeting some of the requirements and had taken action to put this right. The provider has completed a full review of their safeguarding and welfare policies and procedures. This includes the sharing of information policy to strengthen leaders and staff knowledge of required notifications and so that these are reported in the required timeframe. In addition, they have improved the effectiveness of supervision provided for managers and staff. They have ensured that staff have attended safeguarding training and reinforced with staff the importance of following procedures for whistleblowing. They have put systems in place to ensure staff follow risk assessment procedures, particularly for outings. These actions have helped staff to prioritise children's welfare and safety at the setting.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
