

Complaint about childcare provision

Ref: EY271369/6125917

Date: 24 October 2025

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 30 July 2025, the provider notified us about matters relating to health. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of any significant events which may impact the suitability of those working with children.

On 9 September 2025, we received concerns that the provider was not meeting requirements relating to health, key person, safety and suitability of premises environment and equipment, and information and record keeping.

On 23 October 2025, we carried out a regulatory telephone call. We found the provider was not meeting some of the requirements and had taken action to put this right. The provider has ensured that all adults working with children understand the importance of obtaining information about children's dietary requirements and preferences. The provider ensures that staff work in line with the information provided. This ensures that the provider is working with parents and carers to meet dietary needs and to keep children safe.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.
