

Compliance action taken for childcare provision

Ref: 2736515/6194393

Date: 2 November 2025

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2. If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right. On 28 October 2025, the provider notified us about matters relating to staff: child ratios. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted any significant event which is likely to affect the suitability of any person who cares for/is in regular contact with children on the premises.

We found the provider was not meeting some of the requirements as a child had been left unsupervised after being taken to the toilet. This resulted in the child then being on their own in the pre-school room as staff and children were outside in the garden. This was for a short period of time. We are satisfied with the action the provider has taken to prevent a similar occurrence from happening.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
