

Compliance action taken for childcare provision

Ref: 512423/6043273

Date: 19 June 2025

Summary of outcome

All early years providers must meet the legal requirements in the Statutory framework for the early years foundation stage, which you can find at www.gov.uk/government/publications/early-years-foundation-stage-framework--2.

If we find that a provider is not meeting the requirements, we can take action to ensure they put matters right.

On 16 May, the provider notified us about matters relating to children's health. The notification means that the provider met their legal responsibility as set out in the Statutory framework for the early years foundation stage to notify Ofsted of significant events involving children.

On 19 June 2025, we carried out a regulatory telephone call. We found the provider was not meeting some of the requirements and had taken action to put this right.

The management team have swiftly investigated the incident and improved their procedures for administering children's medication, ensuring staff are aware of the specific risks. In addition, they have made changes to staff's practice to ensure children who have medication are fully supervised until this is administered fully.

The provider will be able to give parents further information about this. The provider is still registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years.
