IP for GSE

Wednesday 8 February 2017, 9:30am to 4.00pm

What is intellectual property (IP)? Why might it be important to your business in government? Would you like to know more and meet fellow professionals in science, technology and engineering?

The Intellectual Property Office (IPO) is running an 'IP for GSE' training day for colleagues in the Government Science and Engineering Profession. The programme will cover all aspects of IP that we deal with: patents, trade marks, copyright and design. It will include time with a patent examiner working in your field of interest, and an introduction to our Customer Visit and Technical Training Programmes.

Build your GSE networks, raise awareness of science, technology, engineering and IP in Government, earn CPD points!

For further information and bookings, please contact GSE@ipo.gov.uk by Friday 27 January. If you would like to participate, please indicate your technical field to help us match you to an examiner working in your field.
