Notes

This certificate is to be completed at the request of the importer in the United Kingdom. The completed supplementary support certificate must be sent to the importer in the United Kingdom.

The completed certificate provides supporting assurances for the export from the United Kingdom to the United States of semen or in vivo embryos derived from donor animals of EU origin.

- ¹ The certificate reference number must comprise the establishment's approval or registration number, the date and a sequential number, for example XXX/25.11.22/01.
