

## REFERENCE RELATING TO THE COMPLETED ACQUISITION BY GXO LOGISTICS, INC. OF WINCANTON PLC

### CASE CLOSURE SUMMARY

In its final report<sup>1</sup> on the completed acquisition GXO Logistics, Inc. (**GXO**) of Wincanton plc (now Wincanton Limited) (**Wincanton**) (the **Merger**), the CMA found that the Merger had resulted or may be expected to result in a substantial lessening of competition (**SLC**) in the supply of dedicated warehousing services to grocery customers in the United Kingdom. The CMA concluded that the sale of Wincanton's dedicated warehousing services business serving Wincanton's customers in the grocery segment (the **Divestment Business**) to a suitable purchaser approved by the CMA would remedy the SLC and resulting adverse effects effectively and proportionately (the **Remedy**).

On 26 August 2025, the CMA accepted final undertakings from GXO to give effect to the Remedy.<sup>2</sup> On 13 September 2026, GXO completed the sale of the Divestment Business to DP World Logistics UK Limited. This brings the merger investigation to a close.

13 September 2026
